SUMMARY

MERN Stack Developer with 3+ years of frontend development experience and 2 years of backend development experience building scalable, responsive, and high-performance web applications. Skilled in React.js, Next.js, Node.js, Express.js, MongoDB, JavaScript, and TypeScript with hands-on experience in RESTful API development, authentication systems, database management, and full-stack application architecture. Strong understanding of frontend optimization, backend integration, and scalable application development. Experienced collaborating with cross-functional teams to deliver secure, maintainable, and user-friendly web applications.

TECHNICAL SKILLS

- **Frontend Technologies:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
 - **Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware Development
 - **Database Technologies:** MongoDB, Mongoose, Firebase, MySQL (Basic)
 - **CSS Frameworks & UI Libraries:** Tailwind CSS, Material UI (MUI), Ant Design, Bootstrap
 - **State Management:** Redux Toolkit, Context API, Custom React Hooks
 - **API & Data Handling:** RESTful APIs, GraphQL, Axios / Fetch
 - **Tools & Workflow:** Git & GitHub, Docker, Postman, npm / Yarn, ESLint, Prettier, Chrome DevTools
 - **Other:** Full Stack Application Development, Component-Based Architecture, Responsive UI Development, Performance Optimization, Cross-browser Compatibility, Agile/Scrum Collaboration
-

WORK EXPERIENCE

Texas Digital Hub - Lahore

Jun 2025 - Present

- Developed scalable full-stack healthcare solutions using React.js, TypeScript, Node.js, Express.js, and MongoDB.
- Built and maintained secure RESTful APIs for handling medical records, lab tests, insurance data, and patient workflows.
- Designed responsive and reusable frontend components using React.js and Tailwind CSS.
- Integrated frontend applications with backend services and third-party healthcare systems.
- Optimized application performance by reducing unnecessary API calls and improving component rendering.
- Collaborated with backend developers, UI/UX designers, and QA teams in Agile workflows.
- Participated in architecture planning, debugging, deployment support, and code reviews.

Ultraship TMS (Remote-US-Based)

Dec 2024 - Jun 2025

- Worked on a logistics management platform using Next.js, Node.js, Express.js, GraphQL, and MongoDB.
- Developed backend APIs and integrated frontend modules for dashboards, calendars, and email campaign systems.
- Implemented role-based access control and authentication workflows.
- Contributed to the Master Module for managing commodities, charge types, and operational data.
- Built scalable and responsive user interfaces using TypeScript and shadcn/ui.
- Improved application maintainability through modular architecture and reusable components.

Utecho - Faisalabad

April 2023 - Nov 2024

- Led frontend development using React.js, Material UI, Ant Design, and Tailwind CSS.
- Assisted in backend API integration and database communication using Node.js and Express.js.
- Developed reusable UI components and integrated secure RESTful APIs.
- Worked closely with backend teams to ensure smooth frontend-backend communication.
- Participated in debugging, testing, Git-based version control, and deployment activities.
- Improved application performance and UI consistency across multiple projects.

Xavier-tech - Faisalabad

Feb 2023 - April 2023

- Developed responsive web pages and reusable React components.

- Converted UI/UX designs into functional frontend interfaces.
 - Improved responsiveness, accessibility, and cross-browser compatibility.
 - Collaborated with senior developers to enhance frontend performance and code quality.
-

PROJECTS IN UTECHO

Dynomo (E-commerce)

- Developed a multi-vendor e-commerce platform with product management, dynamic pricing, and promotional features.
- Built responsive frontend interfaces and integrated APIs for store and user management using React.js and MongoDB.

GYM Workout

- Developed an admin dashboard with real-time analytics, revenue tracking, and interactive data visualization.
- Implemented Redux Toolkit state management and integrated APIs for dashboard workflows and updates.

Zikr Quran

- Developed a Quran learning platform with Student/Tutor management, booking systems, and secure authentication workflows.
- Added Islamic utility features and interactive user experiences using React.js and Three.js.

Additional Projects (React, Next.js)

- Built multiple frontend and full-stack applications using React.js, Next.js, Node.js, and MongoDB.
 - Developed reusable UI components, dashboards, API integrations, and responsive web interfaces.
-

EDUCATION

Bachelor of Information Technology

Government College University | Faisalabad 2020 –2024

ADDITIONAL INFORMATION

- Strong understanding of component-based architecture and modern React patterns
- Familiar with accessibility (a11y) best practices
- Experience working in Agile/Scrum teams
- Passionate about writing clean, scalable, and maintainable frontend code
